SUMMARY

Full Stack Web Developer with 3+ years of experience designing and shipping modern web applications using React, TypeScript

SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express, REST API

Databases & Tools: MongoDB, Docker, Git, Next.js

EXPERIENCE

Full Stack Engineer - BrightWave Interactive (2022 - Present)

- Developed responsive user interfaces and modular component libraries using React and TypeScript.
- Built and maintained scalable backend REST APIs using Node.js and Express.
- Designed database schemas and managed document storage using MongoDB.

Junior Web Developer - PixelCraft Studio (2020 - 2022)

- Created responsive web layouts and styled landing pages using HTML, CSS, and Tailwind CSS.
- Integrated third-party REST API endpoints with frontend client applications.
- Collaborated in code reviews using Git and GitHub workflows.

EDUCATION

B.S. in Information Technology - Georgia Tech (2016 - 2020)

PROJECTS

DevPortal Dashboard

- Built a full-stack developer productivity dashboard using React, Next.js, and Node.js.
- Integrated authentication and real-time state management.

CERTIFICATIONS

Meta Certified Frontend Developer
