OBJECTIVE

Detail-oriented Full Stack Developer Intern with experience in Python, Django, and JavaScript. Developed a Gym Management System, implementing secure authentication and responsive design. Motivated and adaptable individual with a strong foundation in software development. Experienced in team collaboration within Agile environments, contributing to projects that enhance user experience and operational efficiency.

EDUCATION

Kalaignar Karunanidhi Institute of Technology, Coimbatore, Tamil Nadu, India

2024 – 2028

B.Tech Artificial Intelligence and Data Science | CGPA: 8.24/10.0

EXPERIENCE

Full Stack Developer Intern (Django), Ether Services, Coimbatore, India

May 2026 – June 2026

- Developed a Gym Management System using Python, Django, SQLite, HTML, CSS, JavaScript, and Bootstrap.
- Built modules for member management, attendance, memberships, billing, trainer management, and reporting.
- Implemented secure authentication, CRUD operations, and responsive UI using Django and Bootstrap.
- Generated PDF invoices, Excel reports, and QR code-based check-in functionality.
- Used Git for version control and collaborated in an Agile development environment.

English Typewriting – Senior Grade

- Self-motivated, with a strong sense of personal responsibility; skilled at working independently and collaboratively.
- Worked effectively in fast-paced environments with a proven ability to learn quickly and adapt.

PROJECTS

Gym Management System (Django) | HTML, CSS, JavaScript, Bootstrap 5, Django 5.1, Django ORM, SQLite

- Developed a Gym Management System to digitize and automate gym operations, eliminating manual record-keeping.
- Enabled administrators to efficiently manage member registrations, memberships, attendance, trainers, payments, notifications, and reports through a centralized web application, improving operational efficiency and user experience.

Personalized Academic Content Recommender | React.js (Vite), React Router, Axios, CSS3, Node.js, MongoDB

- Developed an AI-powered web application that delivers personalized academic learning resources by recommending courses, notes, videos, and study materials based on students' interests, learning history, and preferences.
- Enabled an adaptive and efficient learning experience for students.

OK Education – Multi-Role System | React.js, Node.js, MongoDB, Axios

- Built a beginner-friendly MERN stack application implementing a multi-role user system for an educational platform.

TECHNICAL SKILLS

Programming: Python, Java, C++

Web & MERN Stack: HTML, CSS, JavaScript, React, Node, Express, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Canva

CERTIFICATIONS

- **CISCO** – Operating System Basics
- **CISCO** – Python Essentials 1 & 2
- **Coursera** – Artificial Intelligence Essentials
- **Coursera** – Data Visualization with Python
- **MongoDB** – MongoDB Basics for Students, AI Data Strategy with MongoDB, Vector Search Fundamentals, RAG with MongoDB, AI Agents with MongoDB

COMPETITIVE PROGRAMMING & ACCOMPLISHMENTS

- **LeetCode & CodeChef:** Rated 1400+ on both platforms; Division 3 ranking on CodeChef.
- **Problem Solving:** Solved 1000+ problems across rated competitive programming contests.
- **Contests:** Participated in 60+ global competitive programming contests.
- **GTA Megajam Hackathon (Rourkela, India):** Completed as a team.
- **International-level 360°-3.0 Hackathon** organized by KPR Institute of Engineering and Technology, Coimbatore – earned certificate.
